

ETS Solutions Appoints Cybersecurity Expert Troy Phelps as CISO Advisor

Kennesaw, Ga. – January 9, 2025 – ETS Solutions, a faith-based technology advisory firm with over 20 years of experience, is pleased to announce the appointment of Troy Phelps as its Chief Information Security Officer (CISO) Advisor. Phelps, a seasoned cybersecurity leader with two decades of expertise, brings a wealth of knowledge from his roles at Remitly, Home Depot, and his own consultancy, TAPhelps Brands.

Most recently, Phelps served as Global CISO and Chief Privacy Officer at Remitly, where he played a pivotal role in the company's IPO and strengthened its cybersecurity infrastructure to meet SEC compliance standards. Previously, he led a major cybersecurity overhaul at The Home Depot following one of the largest data breaches in history, enhancing risk management and securing assets across global operations.

"ETS Solutions' commitment to its clients and community is something I deeply respect. I'm excited to join the team and help strengthen the cybersecurity strategies of their clients," said Phelps.

Phelps began his career in the U.S. Air Force, where he was recognized for his cybersecurity contributions. A Certified Information Systems Security Professional (CISSP), he blends military discipline with corporate expertise to drive robust cybersecurity strategies that support business growth.

"We're facing an urgent need for cybersecurity expertise, and Troy's track record speaks for itself," said Mike Russell, President of ETS Solutions. "His leadership will be invaluable as we help our clients navigate the complex cybersecurity landscape."
